ECS-125WBD/125WHVBD* board only Installation Instructions

This Installation sheet will provide information on how to install the ECS-125WBD

Note: Installation and wiring of this device must be done in accordance with NFPA 72 and local ordinances. For more information see ECS-Series installation manual PN 151455.

Note: *All references to ECS-125WBD within this sheet are applicable to ECS-125WHVBD

Mounting the ECS-125WBD

1. Make certain that AC and DC power have been removed from the panel.
2. If this module is a replacement for an existing ECS-125W, remove the screws which secure the board to the enclosure.
3. Secure the supplied bracket to the top mounting bracket on the ECS-125WBD with the two mounting screws. See Figure 1.

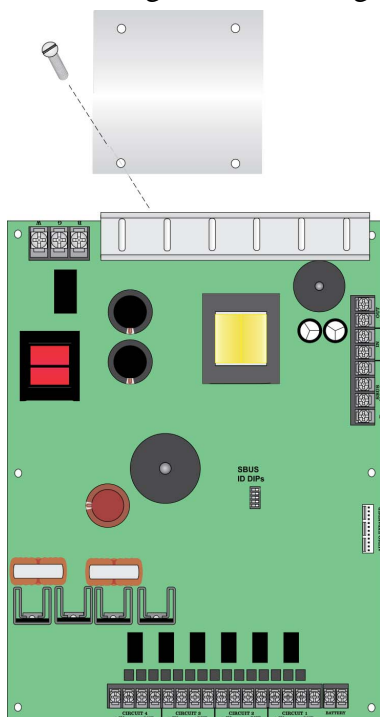

Figure 1: ECS-125WBD mounting bracket

4. Align the mounting holes on the bracket with the enclosure.
5. Secure the board to the enclosure.
6. Restore AC power and reconnect the backup batteries.
