

A COMPLETE ANTIMICROBIAL SOLUTION TO HELP KEEP BUILDINGS HEALTHY, MADE RIGHT HERE IN THE UK.

by Honeywell

WIRING DEVICES

LOGIC PLUS

- Manufactured from **Urea Formaldehyde**, a high grade thermoset material, which has an **inherent antimicrobial property**.
- Tested to the latest industry standard ISO 22196:2011

- **NEW** Independent laboratory tests show Logic Plus has kill rates of **OVER 99.99%** against;

Bacteria's

- MRSA
- E.Coli
- Salmonella
- Klebsiella Pneumoniae
- Additionally; Listeria and S.Aureus 6538p - which can be resistant to antibiotics.

Virus

- Phi - X174 - internationally recognised as the standard in anti-viral testing. It's also one of the smallest known non-enveloped viruses and therefore harder to detect and kill.
- High quality moulding tools - scratch free
 - avoiding any dirt traps for bacteria to breed.

*Excludes electronic products
