

MULTISITE BUILDING MANAGEMENT

Honeywell Small and Medium Building Administrator
Powered by Honeywell Forge

Honeywell

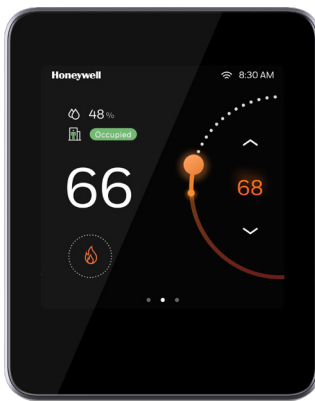

REMOTE, SCALABLE MULTISITE BUILDING MANAGEMENT

Drive efficient operations, increase occupant comfort and protect your employees and customers across as many building sites as you have with the Honeywell Small and Medium Building Administrator. It's an affordable, cloud-based solution packed with features and designed to scale with your organization.

OCCUPANT COMFORT

A comfortable environment makes for return customers and happy, more productive employees.

Manage occupant comfort and indoor air quality at all your sites from wherever you are.

- Easily set global schedules to optimize comfort settings and let your system maintain them for you
- Improve air quality to provide a safer, healthier environment for occupants.
- Use the Comfort Index to quickly identify stores with climate control issues across your portfolio to focus your efforts where it matters most
- Easy Comfort Control via any mobile enabled device

OPERATIONAL PRODUCTIVITY

Remote monitoring and management help prevent unexpected breakage, damage and downtime.

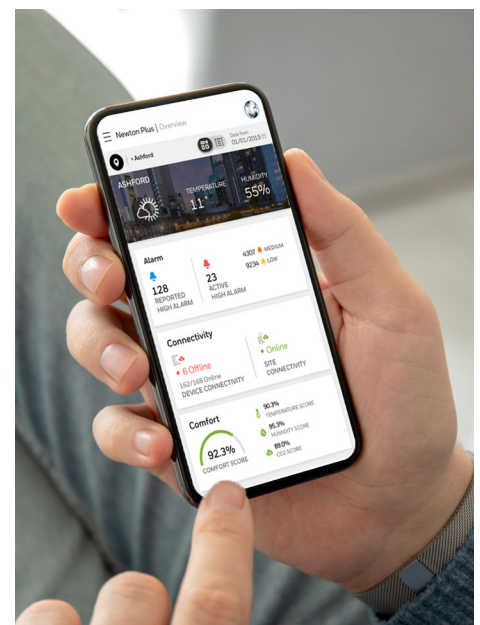

Unobtrusive installation and simple maintenance support ongoing business continuity. Intuitive dashboards showing alerts and trends means you'll optimize operational efficiencies.

- Measure, manage and optimize energy usage across the portfolio to identify and correct inefficient sites
- Centrally or regionally manage alarms efficiently to highlight the highest priority issues for resolution
- Wide range of sensing capability allows for custom solution for your application. For example: monitor cooler and freezer temps to protect valuable contents, detect water leaks, hot and cold wells in food prep areas
- Ensure site compliance to corporate standard temperature setpoints and schedules
- Easily manage schedules by country, regions, site or equipment level, increase schedule compliance and energy savings

PORTFOLIO MANAGEMENT

Stay connected to all of your building locations from anywhere with intuitive central building management, scalable from tens to thousands of sites. Building portfolio management is made simple through:

- Site rankings by Comfort, Energy, and Alarms. All data views are customizable and sortable.
- A modular solution that fits most applications
- Built in cybersecurity that meets strict standards from Honeywell and industry organizations
- Open industry protocols allowing for easy future expansion and integration

PORTFOLIO MANAGEMENT SIMPLIFIED

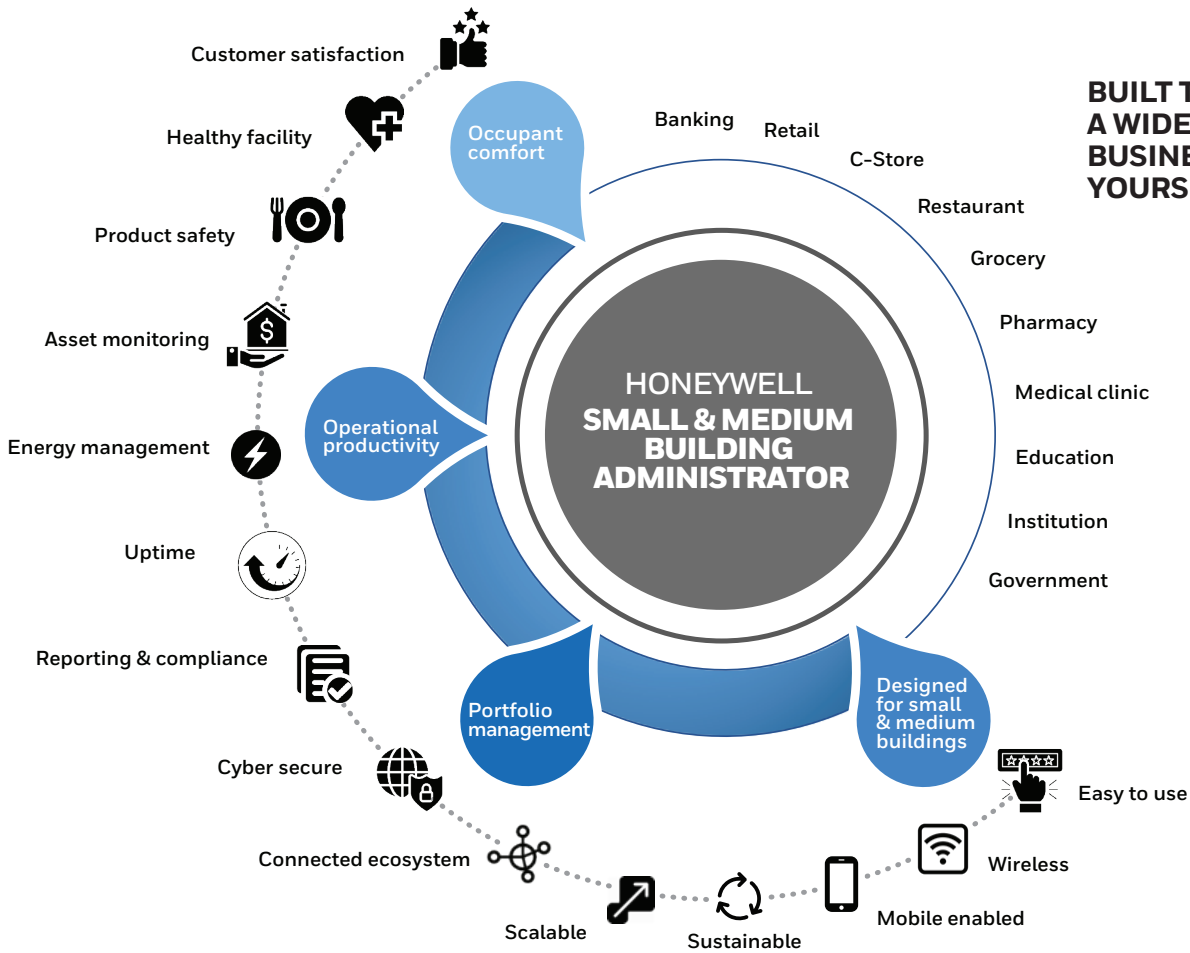

A HEALTHY AND SUSTAINABLE BUILDINGS PORTFOLIO

With the increased demand to demonstrate building health, proper monitoring and control features can help make sure your building is in good health and that employees, visitors, and occupants are more comfortable.

DESIGNED FOR SMALL & MEDIUM BUILDINGS

- Wireless hardware allows for a non-intrusive installation
- Easy to install, configure and deploy with little to no down time for businesses to manage
- Cloud-connected solution can scale quickly across your building portfolio
