Supervised Remote Microphone

Supervised Remote Microphone

SCSS-700RM

The SCSS-700RM is a combination supervised remote microphone and annunciator which is compatible with the VIP-Series voice integration panels. The on-board microphone allows the user to override the pre-recorded messages with timely on-the-scene instructions. The annunciator is capable of performing complete operation of the fire alarm system, including silencing and resetting.

Features

- On-board supervised microphone
- System can support up to two supervised remote microphones (SCSS-700RMs)
- Up to 64 mappable speaker circuits using a combination of VIP-50s, VIP-125s, and VIP-CE4s
- All call and Non-Alarm buttons to quickly select all active or all the non-active output groups
- Six-wire connection to VIP system; Two-wires for the voice bus, and four-wires for the SBUS connections

Installation

The SCSS-700RM can be surface or flush mounted.
