

# MAKE BUILDING AIR QUALITY A KEY PERFORMANCE INDICATOR

Your school's air quality impacts your educational mission, and should be checked frequently to help comply with industry regulations and guidelines. Alerton building management systems and services can help you maintain optimal indoor air quality to support an open and comfortable learning environment, while also managing energy use.

## CHECKLIST: MANAGING INDOOR AIR QUALITY FOR SCHOOLS

### Maintain Air Flow

Maintaining sufficient fresh-air exchange can support better comfort for students and staff. We can help bring in the right amount of fresh air based on occupancy and environmental conditions, while also helping you meet school-building regulations.

### Control Temperature

Maintaining the proper climate in your building improves occupant comfort and well-being. Our wall modules and commercial thermostats make it easy to manage conditions in your schools.

### Balance Humidity

Abnormal humidity levels can foster an unhealthy environment for students and staff. Humidity sensors can help manage and maintain comfortable humidity levels for your school building.

### Integrate Building Systems, Cost-Effectively

Optimize building operations with improved data speed. With our VAV IP Controllers, schools are a part of an IP network, making their HVAC systems more capable and better protected than ever before. Smarter VAV control help you achieve smarter automation and better cybersecurity. Our latest generation of VAV IP Controllers are your shortcut to smart VAV control.

### Monitor and Control Your Site Remotely

Simplify facility management with cloud-based control that lets you monitor and manage building operations from virtually anywhere, even off-site and after hours. Get alerts and respond faster from mobile devices, centralize control of multiple sites, and make consistent operations more convenient to maintain throughout the year.

### Review the Latest [ASHRAE Guidelines](#)

## Better indoor air quality makes a difference – and we can help.
