

BUILDING HEALTH MEANS HUMAN HEALTH

Take care of your building occupants and your assets with a building administrator scaled to your needs, and ready to scale with you

SMALL AND MEDIUM BUILDING ADMINISTRATOR
HEALTHY BUILDING DASHBOARD

Honeywell

KNOW YOUR BUILDING IS HEALTHIER AND KEEP IT THAT WAY

A healthy building improves the confidence and productivity of the people who use it, while maintaining energy efficiency and controlling the cost of operation. Indoor air quality is the foundation of a healthier building. Honeywell Healthy Building analytics assures building owners, managers and occupants of a safe, healthy indoor environment.

The Honeywell Healthy Building Score provides building owners and occupants with visible, credible, real-time data on the health of the building.

It gathers data from smart sensors monitoring temperature, humidity, carbon dioxide, inanimate particulate matter, and volatile organic compounds (which can be produced by cleaners, solvents – even hairspray), throughout the building. Then it displays key performance indicators based on current best practices and standards from industry organizations like ASHRAE and REHVA. The Healthy Building Score baseline can evolve based on changing regulations, and third-party data can be easily integrated. It also allows building owners and operators to quickly address non-compliance issues, deal with potential exposure-related incidents, and communicate building health metrics to occupants.

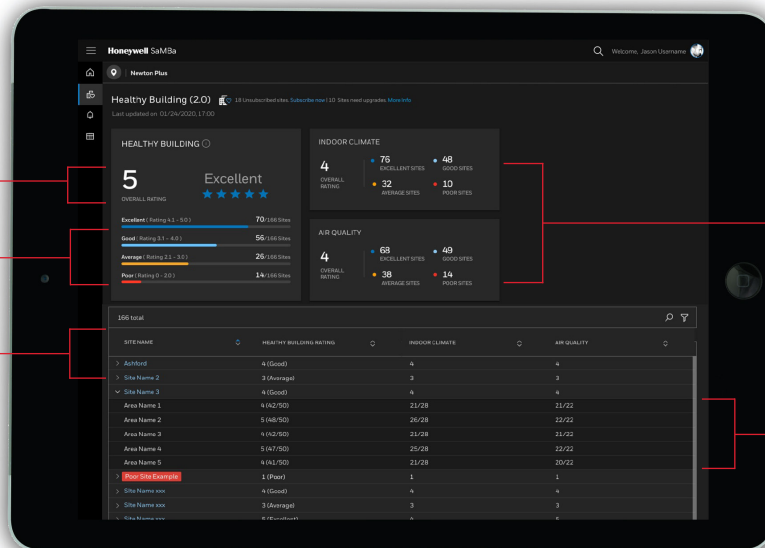

SUSTAIN COMPLIANCE

Building owners can gain insights into critical health, safety and security factors to support compliance with changing building standards, safety guidelines, government-issued regulations and a company's risk management policies. Healthy Building Score data gives building owners the ability to minimize risk as they adapt to evolving standards of compliance.

5 Star Healthy Building score of portfolio, based on Indoor Climate and Indoor Air Quality (IAQ)

Distribution of sites across IAQ quality tiers
Example: 70 of 166 sites have an Excellent score of 4.1-5.0 Stars.

Sites within the portfolio with Healthy Building Dashboard are shown in list format. These sites can be sorted, searched and filtered. HB scores can be seen for each category.

The rating for each site is shown as well as the distribution of sites into the quality tiers.

Sites with multiple zones can be expanded, showing scoring for the zones.

Healthy Building Dashboard for Honeywell Small and Medium Building Administrator

KNOW YOUR BUILDING IS WORKING FOR ITS USERS FROM ANYWHERE

Manage capital investment in your facility, ensure occupant comfort, and safeguard temperature-sensitive inventory, all with a single secure cloud platform you can access from anywhere. The Honeywell Small and Medium Building Administrator is a secure, enterprise-grade cloud control platform designed for your building fleet. It enables optimization and control of HVAC, lighting, refrigeration and more. Whether you manage one site or many, it's designed to scale up as you and your data requirements grow.

REPORTING AND ALERTS

With easy-to-install wireless sensors in every critical location, the Honeywell Forge-powered web portal can generate usage and compliance reports and send alerts to staff, on- or off-site.

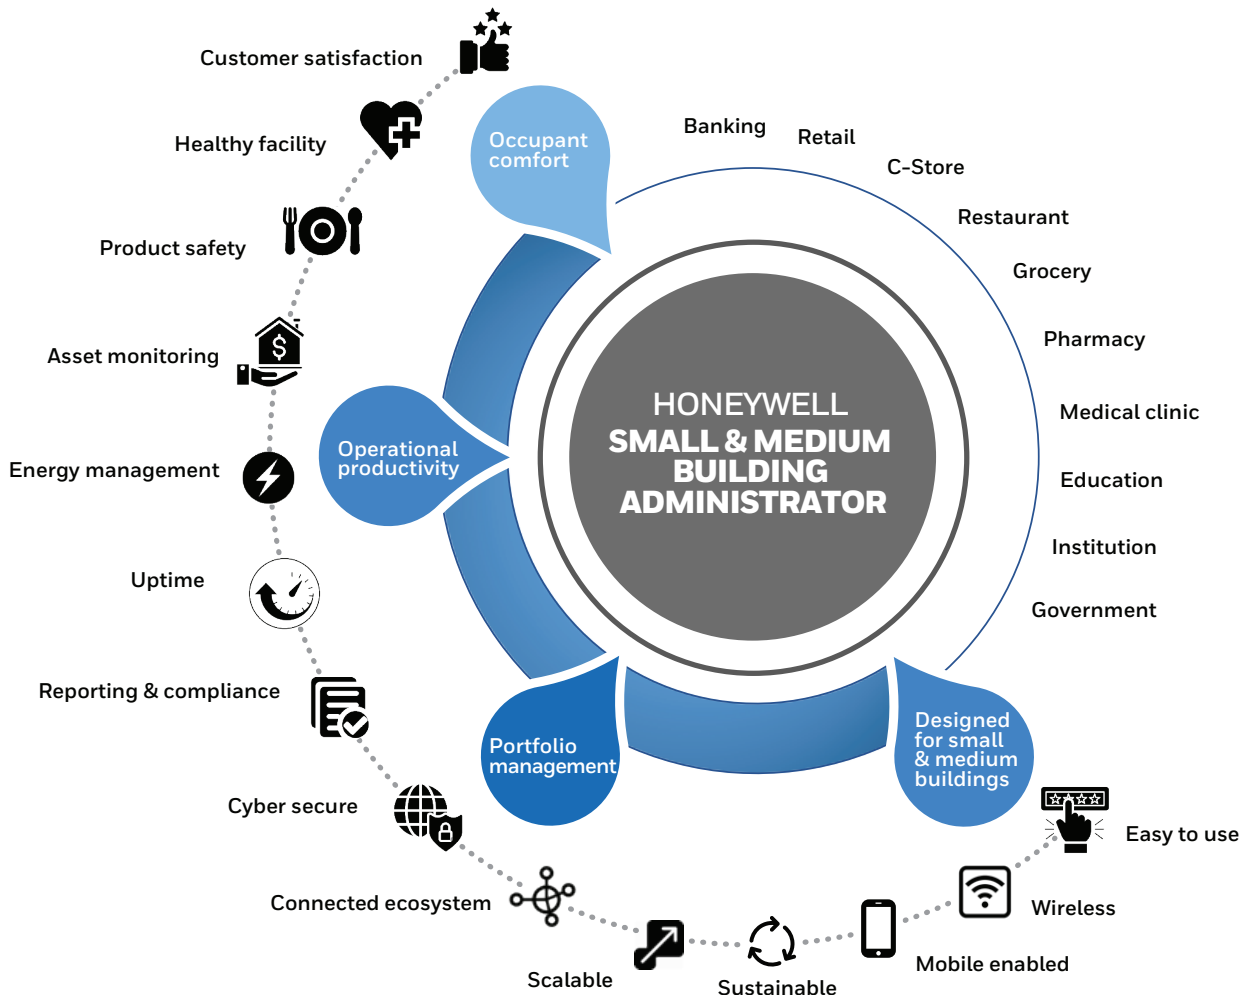

SECURITY & PRIVACY BY DESIGN

Honeywell Healthy Building solutions feature software and hardware built with a secure, privacy-by-design approach. It complies with local regulations and data privacy laws.

KEY PERFORMANCE INDICATORS TO KEEP YOUR BUILDING ON TRACK

Monitor your sites with an easy to install, wireless, non-intrusive and cloud-based air quality dashboard.

- Honeywell Healthy Building 5 Star Score
 - Portfolio, Site, and Zone levels
- Monitor Indoor Climate
 - Temperature
 - Humidity
- Monitor Air Quality
 - CO2
 - Volatile Organic Compounds (VOC)
 - Particulate Matter (PM 2.5)

A HEALTHY BUILDINGS PORTFOLIO

With the increased demand to demonstrate building health, proper monitoring features can help make sure your building is in good health and that employees, visitors, and occupants are protected.
