EVOLVING TO AN ENHANCED SUPPORT & WELL-BEING MODEL WITH YOUR LOCAL TEAM

As a global provider with a local presence, our teams on the ground offer reliable solutions to help Corrections providers move securely into the future. An expert mix of technology, service and change management, underpinned by a socially-focused

mindset will ensure Corrections Operators can realise their visions and strategies, and over time become part of a broader, connected justice system.

Your local Honeywell team will work closely with you to explore your

unique operational model and develop an appropriate technology and innovation roadmap. This roadmap will be informed by Honeywell's proven and upcoming technology advancements and will facilitate practical solutions to your challenges.
