

## IQ5 IO Modules

The IQ<sup>TM</sup>5-IO range of I/O modules are designed for use with the IQ5 controller, to provide input and output channel connection points.

A comprehensive choice of I/O types is available including universal inputs/outputs (UIO), digital inputs (DI), digital/relay outputs (DO). A 'hand-off -auto' variant (8DO-HOA) is also available, offering manual override of module outputs.

Integral I/O bus connectors allow easy and convenient 'side-by-side' module installation utilising touch flake technology or, by using wiring adapters, modules can be installed up to 300 metres apart.

We have now introduced 6 new slimline I/O, ideal for when space is a premium. These new I/O are just 70mm wide and offer a range of Input/Output options to suit your needs. Available as 70mm units are: 4DO, 8DI, 4UIO, 4DO-G, 8UIO, 8UIO-HOA.

Description of new 70mm modules	Order Code
IQ5 I/O Module with 8 universal input/output channels	IQ5-IO-8UIO
IQ5 I/O Module with 8 universal input/output channels with hand-off-auto display	IQ5-IO-8UIO-HOA
IQ5 I/O Module with 4 universal input/output channels	IQ5-IO-4UIO
IQ5 I/O Module with 8 digital input channels	IQ5-IO-8DI
IQ5 I/O Module with 4 digital/relay output channels	IQ5-IO-4DO
IQ5 I/O Module with 4 digital/relay output channels for low voltage and current	IQ5-IO-4DO-G
Description of original 105mm modules	
IQ5 I/O Module with 16 universal input/output channels	IQ5-IO-16UIO
IQ5 I/O Module with 16 digital input channels	IQ5-IO-16DI
IQ5 I/O Module with 8 digital/relay output channels	IQ5-IO-8DO
IQ5 I/O Module with 8 digital/relay output channels with hand-off-auto display	IQ5-IO-8DO-HOA
