

GET ON THE PATH TO SUSTAINABILITY

Empowering your buildings to contribute more to your business continuity and corporate reputation by increasing positive convergence between the natural and built environments and the experience of the people who occupy them.

Honeywell Sustainability Suite

Honeywell

OUTCOME-BASED OPPORTUNITIES TO MAKE YOUR OPERATIONS MORE SUSTAINABLE

For some, the vision around enterprise sustainability might be crystal-clear; whereas others are taking their time to explore and detail a long-term integrated sustainability plan.

Whichever your situation, Honeywell makes your progression throughout the sustainability journey visible and easy to accomplish, offering solutions to manage energy demand, drive business continuity and effectively leverage often limited funding sources while achieving compliance and working towards meeting Environment, Social, Governance (ESG) goals.

Honeywell has helped **Volkswagen** achieve significant energy savings of **41%** per year at **The Autostadt**.

Monitor and measure performance trends against your sustainability targets and ensure regulatory compliance while you deliver on ESG commitments with real-time access to actionable data and AI-driven insights for your entire global portfolio.

The Honeywell Sustainability Suite's combination of software systems and services with efficiency or resilience projects and low-impact products allow for integrated, impactful and immediate results.

EFFICIENCY

Demand | Consumption Reduction

Asset replacement or upgrade, connectivity and control will increase resource optimization, decarbonization and positive performance

COST ↓

RESILIENCY

Operational Disruption Mitigation

Energy flexibility plus safety and security to thwart intrusion and respond to anomalies, outages or disasters

RISK ↓

ACCOUNTABILITY

Compliance | Commitment Maximization

Execute ESG effectively with actionable insight necessary to align stakeholder materiality with Board and C-Suite priorities

REPUTATION ↑

WE HAVE YOU COVERED 360° SUSTAINABILITY FROM A₂Z (AUDIT TO NET-ZERO)

* Available through the Honeywell Partnership Ecosystem

BECOME SUSTAINABLE INSIDE AND OUT

Energy is integral to a successful sustainability strategy; the two are inextricably linked. Some see energy strictly as an unavoidable cost, while others see it as a flexible resource to balance fluctuations or improve occupant experience. With integrated solutions to make your buildings smart, connected and easily controlled remotely, Honeywell ensures you are taking every opportunity to drive efficiency, resiliency and accountability from roadside to rooftop across your site and throughout your real estate portfolio.

Honeywell has completed approximately **6,000 guaranteed efficiency projects**. Combined, this work will decrease customers' energy and operating costs by an estimated **\$6 billion**

UPGRADE, IMPROVEMENT, AND IMPACT MEASURES

24/7 MANAGED SERVICES

Take the guesswork out of building management and hit your performance and sustainability goals with round the clock remote oversight from our technical resource and efficiency experts.

AI-DRIVEN ANALYTICS

A combination of artificial intelligence, machine learning, seasoned industry engineers and certified experts converge to provide validated insights and actions for proactive remediation to ensure your facility is optimized and aligned to accountability priorities.

FLEXIBLE FINANCING

Energy-as-a-Service, CAPEX, OPEX, performance contracting, off balance sheet financing, & incentive funds. Money is no longer a reason to delay the sustainability improvements you can benefit from immediately today.

END TO END SOLUTIONS FOR CUSTOMERS AROUND THE WORLD

We have implemented innovation and impact projects for our global customers, from single building solutions to portfolio wide projects delivering outcome based opportunities to make operations more sustainable, efficient & resilient.

MAJOR RETAIL CHAIN

By monitoring and controlling energy in **300+** stores across Mexico, Honeywell has helped a major retail chain save **28.66% (-1,339 M kWh)** up to **\$18.3M USD** in the last 10 years.

FDA RESEARCH CENTER

99.999% uptime power and business continuity with smart grid island mode **despite 70 external related threats** over 4 years.

SYDNEY OPERA HOUSE

Honeywell has helped the **Sydney Opera House** reach their goal of **reducing water consumption by 30%** through improved monitoring.

FAST-TRACK YOUR SUSTAINABILITY JOURNEY

With the Honeywell as your partner, we can help you take the first step to get your organization on the path to sustainability.

- 1** Portfolio wide global energy assesment
- 2** Impact alignment to compliance and targets
- 3** Fullspectrum project scoping and gap analysis
- 4** Impact simulation and pay-back modeling
- 5** Project expertise & execution deployment
- 6** Assurance through 24/7 managed services
