SMART SECURITY
ALWAYS DEALS THE HOUSE A WINNING HAND

Put the odds in your favor with integrated security that provides total situational awareness to protect casino profits, assets, players and employees.

**Integrated Security for Gaming**

Honeywell

INTEGRATED SECURITY REDUCES RISK FOR YOUR CASINO

Casino security and monitoring impacts the bottom line and helps create the kind of experience that keeps high-value players coming back for more. But security isn't easy and these days your security team needs all the help it can get to protect people and assets, ensure compliance, detect player or employee misconduct, and reduce risk for your gaming operation.
Your team needs Honeywell.

SMART, INTEGRATED SECURITY – FROM HONEYWELL

After more than 20 years in the gaming industry, Honeywell recognizes that every casino is different, with unique security needs and challenges. That's why our surveillance solutions and integrated security suites can be tailored to your specific needs. It's also one of the main reasons so many major casinos have chosen Honeywell as their security solutions partner.

SITUATIONAL AWARENESS

Honeywell Pro-Watch™ Integrated Security combines oversight and control into a powerful, map-based interface – giving control-room operators an in-depth security view of the entire casino at a glance. This intelligent command view also makes Pro-Watch a powerful foundation for integrating other security and operational capabilities.
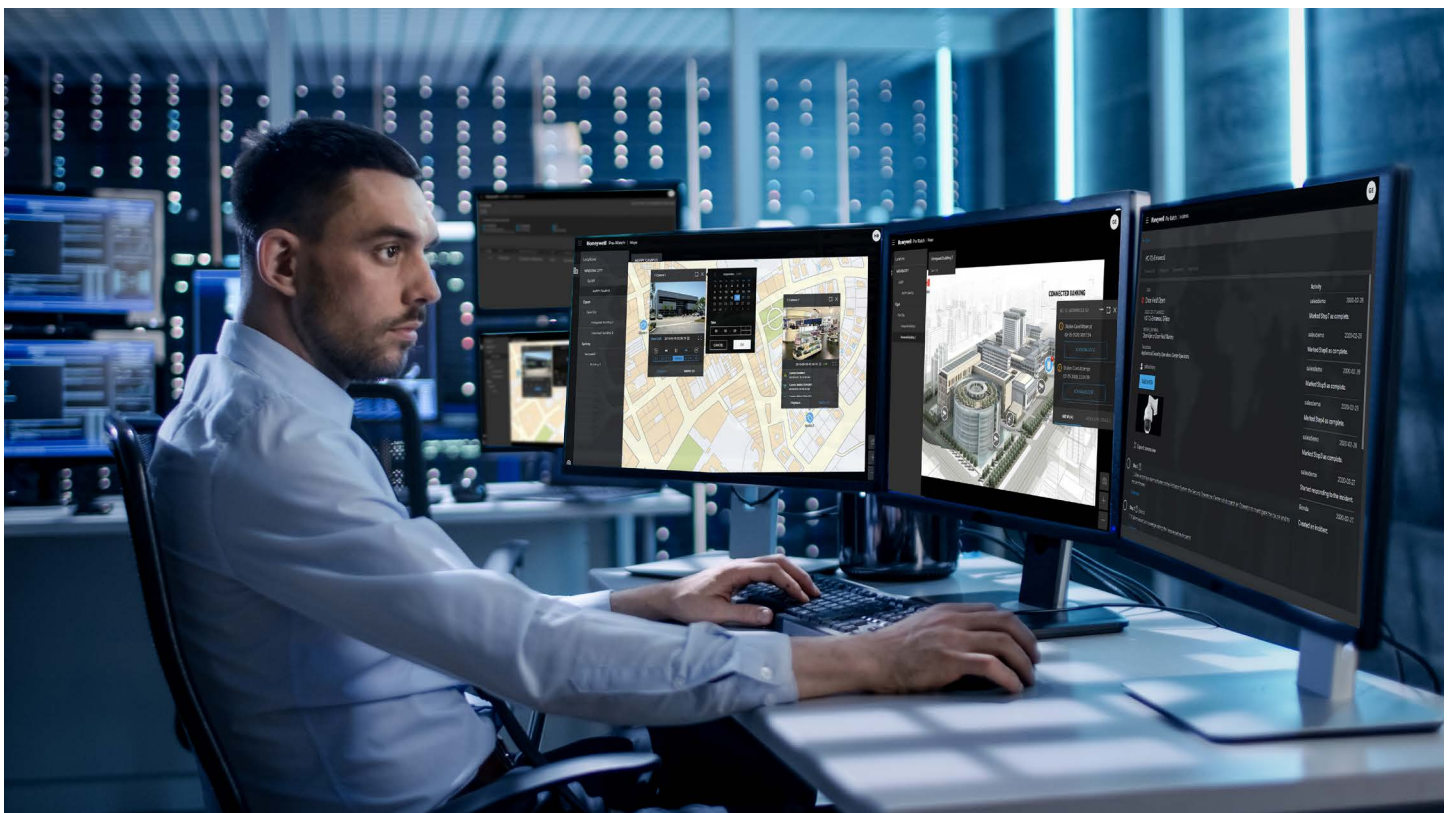

Seamlessly integrate all your security solutions with Pro-Watch, which gives you complete visibility to all the connected systems in the casino. Interactive map elements make it easy to access camera views and security systems in any location from the gaming floor to the parking lot.
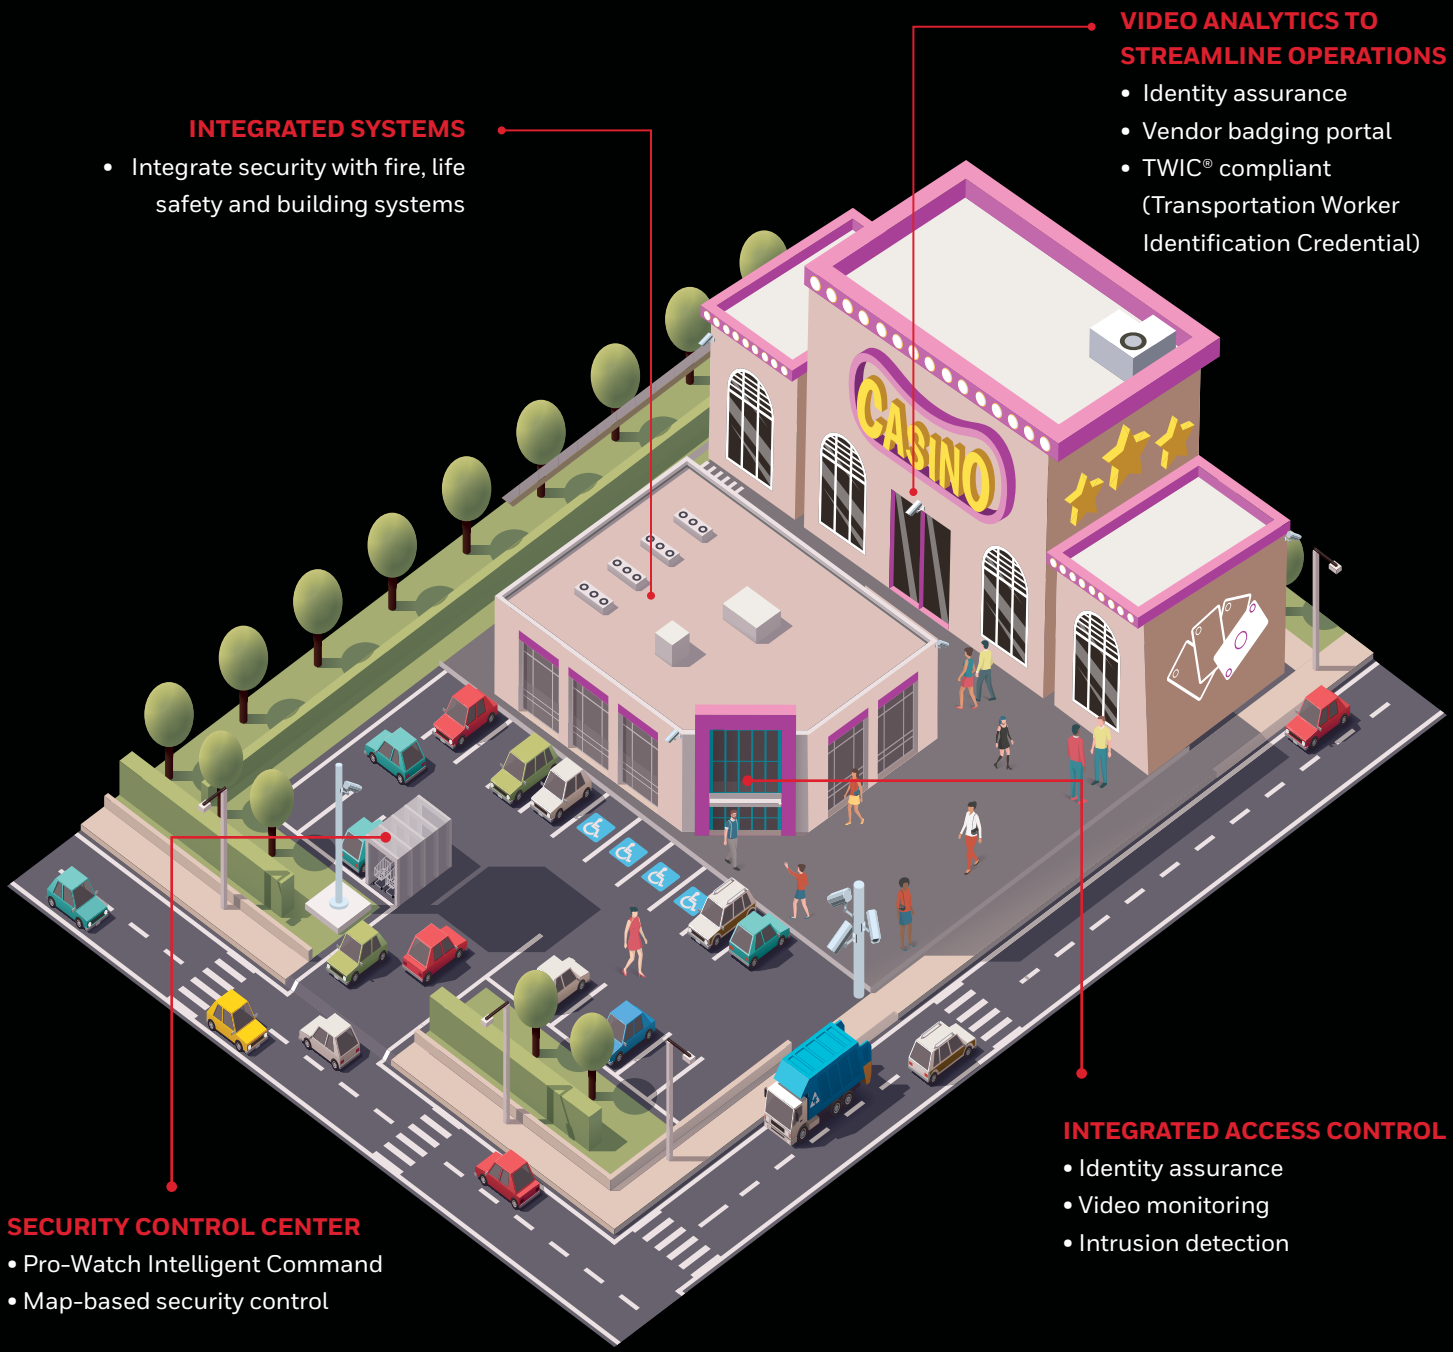

The Pro-Watch Video Management System (VMS) gives you powerful surveillance and analytics to optimize real-time awareness. It's built on an open platform that makes it easy to integrate maintain vigilance and reduce risk.

INTEGRATION STREAMLINES SECURITY

Honeywell helps reduce costs and errors by integrating numerous security capabilities into one, thus automating or eliminating many cumbersome processes. For instance, automated data transfers between systems greatly reduce human error by eliminating duplicate entries.

Likewise, with an open platform like Pro-Watch Integrated Security, you have the freedom to adapt and scale your capabilities as new needs and technologies arise.

VIDEO ANALYTICS TO STREAMLINE OPERATIONS
- Identity assurance
- Vendor badging portal
- TWIC® compliant (Transportation Worker Identification Credential)

INTEGRATED SYSTEMS
- Integrate security with fire, life safety and building systems

INTEGRATED ACCESS CONTROL
- Identity assurance
- Video monitoring
