## REIMAGINE WHAT YOUR BUILDING CAN DO AT HONEYWELL USERS GROUP

We're coming together again for the 2023 Honeywell Users Group (HUG).

Join us in Orlando for the opportunity to connect with industry peers, Honeywell executives and strategic partners as we **REIMAGINE WHAT YOUR BUILDING CAN DO**

### BUILD POWERFUL INSIGHTS

HUG is a three-day symposium developed for customers. The annual event brings together an array of industry leaders to share information, ideas and experiences with peers from all over the world.

### DEVELOPED FOR CUSTOMERS

This conference includes:

- A chance to hear from peers and top industry experts with end user-focused content
- Dedicated industry breakout aligned to key outcomes for your facilities
- Experience new technology in the Connected Innovation Center
- One-on-one appointments with technical subject matter experts
- Technical hands-on training day (*optional*)
- Plus much more

### HANDS-ON WITH THE EXPERTS

The optional technical training day will include instructor-led, hands-on technical training sessions for many of Honeywell's solutions.

Have a question about a new or existing application? Or maybe you have migration-specific concerns? HUG is the best place to get answers to your site-specific questions during a one-on-one expert by appointment (EBA) session with Honeywell subject matter experts.

You can register for technical training or request an EBA during the registration process.

### HUG SERVICE CONTRACT

If you have an existing service contract, it may include a HUG entitlement which can be used as a convenient way to cover the cost of HUG.

The offering may include your registration fee as well accommodation for the duration of the event.

Not sure if you have this entitlement? Reach out to your Honeywell account manager to discuss.

### REGISTER TODAY: VISIT THE HUG WEBSITE

### ATTENDEE TESTIMONIALS

”

As a first-time attendee, I was blown away by the quality of presentations - from the graphics to the AV to the customer and keynote presenters.

”

This was my fifth time attending the conference and they seem to get better each time. I did like how some of the companies presented in the main session. It gives you a chance to hear from other areas besides the breakouts you usually attend.

”

This is great for stepping back and thinking strategically. Really enjoy having some of my standard assumptions challenged. Honeywell Users who do not participate have no idea what they are missing.

### 2023 REGISTRATION FEES

Early Bird Registration \$350  
(Register before May 1, 2023)  
Full Registration fee \$500
