

Security in Design

A&E and Consultant Program

Supporting and Enhancing Project Design

Security in Design

A&E Consultant Program

We provide the tools, resources and communication required to enhance your role in security system design above and beyond the high quality products you've come to expect from Honeywell.

Program Benefits:

- Tools for timely and efficient project delivery
- Solutions that address your clients' needs
- Maintain independence while leveraging Honeywell resources
- Services to help improve and grow your business
- Education to position you as technology and solutions experts

EXPERT SALES AND TECHNICAL SUPPORT

- Expert design support to help you deliver projects timely
- Dedicated sales and technical support to provide a single point of contact for quick response and answers

TECHNOLOGY AND INNOVATION

- Design tools including CAD / Visio drawings, BIM models, and SpecWizard, a CSI specification generation tool that builds project documents in minutes, saving valuable time
- Industry-leading access control, video and intrusion offerings
- Integrated solutions based on comprehensive customer feedback and extensive investment in R&D

CUSTOMIZED EDUCATION

- System design training led by applications engineers at our site or yours
- Industry and product-centric CPE credited Webinars
- AIA-registered continuing education courses
- Product training and modules via Discover Learning Management System

ONGOING COMMUNICATION

- Dedicated A&E resource website
- Security-based industry trends and project and market information
- Your feedback on improving our products and solutions

POWER OF HONEYWELL

- Fortune 100 company that invents and manufactures technologies to address tough challenges such as safety, security, and energy
- Committed to delivering innovations that solve your clients' problems

Why Honeywell?

Honeywell is a recognized leader in providing integrated security solutions, and we're committed to providing you with the tools and resources to help you deliver the utmost value to your clients. We understand the unique needs of the design community. We know that your mission is to provide unbiased, value-added solutions to your clients in a timely and cost-effective manner. And we know your innovation and thought leadership is critical to ensuring the security of your client's people, property and assets.

Our full spectrum of integrated and open security solutions are delivered from our Pro-Watch® platform, an interconnected ecosystem that enables your clients to optimize their security systems.
