PRODUCT UPDATE
35 SERIES CAMERAS

Take advantage of **Honeywell's 35 NEW Series IP Cameras!**

Make your premises smart and secure with **Honeywell's 35 Series** cameras, ideally suited for small to medium sized business operations. These cost-effective cameras, are available in a wide range of form factors and resolutions and offer integrated smart analytics, exceptional picture clarity, flexible system integration, secure data transmission, and easy installation.

MARKET APPLICATIONS
These versatile, fully featured cameras are designed to help safeguard your premises, prevent shoplifting/theft, fraud, vandalism and other potential security threats. They are perfectly positioned for various types of indoor and outdoor retail, office, small and medium business and more.

PRODUCT UPDATE
ADPRO XO 5.2.5

Honeywell XO™ 5.2.5 is the new release of the Operating System for the ADPRO® NVR platforms enabling full remote monitoring capabilities.

You will better protect your customer's staff, customers and facilities with a solution that provides reliable, verifiable alarms and offers a complete crime prevention solution with a competitive price. Integrated solutions ensure safety and security while saving you money.

PRODUCT UPDATE
MAXPRO® CLOUD - MOBILE CREDENTIALS UPDATE

The addition of **mobile credentials into MAXPRO® Cloud** will allow customers to easily issue and revoke mobile key access to the Honeywell Mobile Key App.

Using the power of the HID Origo key cloud, customers can enjoy the convenience of mobile keys, with a monthly billing subscription model managed by MPC.

PRODUCT UPDATE
MAXPRO® CLOUD - SERVICE PRICE CHANGES

Effective from 1ˢᵗ July 2022, we will be reducing the price of the following MAXPRO® Cloud Access Control and Intrusion service SKUs. The changes will simplify pricing (particularly when adding doors to MAXPRO Intrusion) and make connecting to MAXPRO® Cloud more cost competitive (especially for larger sites, and for Intrusion and Access connections). Please check all the details by clicking in the link below.

MY HONEYWELL BUILDINGS UNIVERSITY
NEW TRAINING COURSES!

1. **NDAA 70 Series AI Fixed Cameras Training Course** provides a complete overview of the series. Participants will learn about NDAA compliance requirements, value messaging, features of each camera and the steps to complete installation and configuration of the cameras.
2. **MPA2 – Installing and Configuring the Hardware Training Course** introduces the MPA2 (2) and (4) door access control solution. Participants will learn how to mount and install the MPA2 panel, including how to configure and wire doors, readers, secondary

panels and the NX4IN/OUT downstream boards.

3. **WIN-PAK® Certified Installer Training Course** is designed to build confidence in anyone that needs to successfully deploy, configure, operate and support the Honeywell WIN-PAK® software solution.
