PRODUCT DISCONTINUANCE ANNOUNCEMENT Notifier AFP-2800 and AFP-2802 Addressable FACP

Dear Valued Partners,

With advancements in technology, changes in standards and to maintain best in class product performance and effective support, it sometimes becomes necessary to discontinue and replace products. This bulletin is to announce that Notifier AFP-2800 and AFP-2802 will be discontinued as of immediately.

Onyx™ AFP-3030 is Notifiers most recent intelligent Fire Alarm Control Panel (FACP) with a flexible and scaleable architecture which makes it suitable for virtually any application including large scale networked facilities. Notifier Onyx AFP-3030 has been designed for the Australian market, based on the global Notifier platform and can be used to replace Notifier AFP-2800 and AFP-2802 systems with the appropriate adjustments.

Onyx AFP-3030 provides many key advantages to the End-user, Installer and Service worker such as;

- Assurance of ongoing support and maintainance
- Enhanced global and flexible technology platform for integration with high level interfaces, ASD and wire free field devices
- Meeting the latest codes required by AS 1670.1 - AS 7240 part 2 & 4 & AS 4428.3 Fire Brigade standards

Please see for details about the Notifier Onyx AFP-3030 on www.notifier.com.au

Honeywell is committed to continued support of our legacy systems. In line with this, Notifier Onyx AFP-3030 supports all Flashscan or CLIP field devices that were supported on the Notifier AFP-2800 and prior Notifier systems in the region.

A firmware update to Notifier AFP-2800 is available to enable the Notifier AFP-2800 and ONYX AFP-3030 to co-exist and logically operate on a common network interface enabling mixed system networks. This update and the related documentation are available online.

Servicing & Spares

Warranty will be provided as per Terms and Conditions of sale. Following of last supply of system panels, replacement parts will be available whilst electronic components remain available, and manufacturing remains viable.

Final supported firmware versions of some key components.

Discontinued Parts Item codes

List of part codes discontinued are as per below but are not limited to the mentioned items. Any custom builds or configured systems are also discontinued.

Ordering Code	Description	Status	Replaced by	Description
AFP-2802				
AFP-2802/650-1L	AFP-2802/650-1L-PS5 CAB650,1xSLC,NPS-5	Discontinued	AFP-3030/6501LPS5	AFP-3030 1-loop, NPS-5 in CAB650
AFP-2802/6501LDA30	CAB650,1xSLC,NPS-5,DA-30 CAB650,1xSLC,NPS-5,DA-30	Discontinued	AFP-3030/6505DA230	AFP-3030 1-loop, NPS-5 and DA2-30 OWS in CAB650 with SAM-4
AFP-2802/6501LDA60	AFP-2802/650-1L-DA60 CAB650,1xSLC,NPS-5,DA-60	Discontinued	AFP-3030/6505DA260	AFP-3030 1-loop, NPS-5 and DA2-60 OWS in CAB650 with SAM-4
AFP-2802/650-DA30V	AFP-2802/650-1LDA30 (Vic Only) AFP-2802, DA-30 with single mic plate	Discontinued	AFP-3030/6505DA230	AFP-3030 1-loop, NPS-5 and DA2-30 OWS in CAB650 with SAM-4
AFP-2800				
FG-24-102	AFP-2800/650-1L-PS5 CAB650,1xSLC,NPS-5	Discontinued	AFP-3030/6501LPS5	AFP-3030 1-loop, NPS-5 in CAB650
FG-24-104	AFP-2800/650-1L-PS5-DA30 CAB650,1xSLC,NPS-5,DA-30	Discontinued	AFP-3030/6505DA230	AFP-3030 1-loop, NPS-5 and DA2-30 OWS in CAB650 with SAM-4
FG-24-106	AFP-2800/650-1L-PS5-DA60 CAB650,1xSLC,NPS-5,DA-60	Discontinued	AFP-3030/6505DA260	AFP-3030 1-loop, NPS-5 and DA2-60 OWS in CAB650 with SAM-4
FG-24-108	AFP-2800/650-1L-PS11 CAB650,1xSLC,NPS-11	Discontinued	NA	
FG-24-112	AFP-2800/650-1L-PS11-DA60 CAB650,1xSLC,NPS-11,DA-60	Discontinued	NA	
FG-24-114	AFP-2800/650-1L-PS11-DA120 CAB650,1xSLC,NPS-11,DA-120	Discontinued	NA	
FG-24-140	AFP-2800/900-1L-PS11 CAB900,1xSLC,NPS-11	Discontinued	AFP-3030/9001LPS11	AFP-3030 1-loop, NPS-11 in CAB900
FG-24-142	AFP-2800/900-1L-PS11-DA30 CAB900,1xSLC,NPS-11,DA-30	Discontinued	AFP-3030/9005DA230	AFP-3030 1-loop, NPS-5 and DA2-30 in CAB900 with SAM-4
FG-24-144	AFP-2800/900-1L-PS11-DA60 CAB900,1xSLC,NPS-11,DA-60	Discontinued	AFP-3030/9005DA260	AFP-3030 1-loop, NPS-5 and DA2-60 OWS in CAB900 with SAM-4
FG-24-146	AFP-2800/900-1L-PS11-DA120 CAB900,1xSLC,NPS-11,DA-120	Discontinued	AFP-3030/900DA2120	AFP-3030 1-loop, NPS-11 and DA2-120 OWS in CAB900 with SAM-4
PCI V6.01	AFP-2800 PC Interface software	No longer supported	NA	

Spare Parts Item Numbers

The following items will be available as indicated.

Ordering Code	Description	Status
AFP-2800 Components		
AFP-2800/CPU	IFS-713C - AFP-2800/CPU (Notifier) AFP-2800 CPU	EOL, Available as spare
AFP-2802/CPU	IFS-713C - AFP-2802/CPU (Notifier) AFP-2802 CPU	EOL, Available as spare
KEYPAD/00	Keypad Membrane to suit AFP-2800	EOL, Available as spare
LIM	Loop Interface Module (IFS-725I), to suit AFP-2800	EOL, Available as spare
NIM	Network Interface Module (IFS-725I)	EOL, Available as spare
FIM	Termination Board, to suit AFP-2800	EOL, Available as spare
RLY8	8-way programmable relay expansion kit to suit CAB650/CAB900 c/w cables etc	EOL, Available as spare
Addressable loop (SLC) expansion modules		
LCM-320	Loop Control Module	Active
LEM-320	Loop Expander Module	Active
Annunciators		
LCD-80AU	80 character LCD remote mimic panel to suit AFP-2800	Discontinued
SCS-8AU	Smoke Control Station with 8 x 3 position switches with 3 x LEDs per switch	EOL, Available as spare
SCS-8LAU	Custom mimic module 24 x inputs + 24 x outputs	EOL, Available as spare
ACM-16ATAUS/00	Annunciator Module with 16 Switches, 16 Red/Amber LED's	EOL, Available as spare
ACM-32AAUS/00	Annunciator Module with 32 Red LED. E.g. Flow switches, monitors etc.	EOL, Available as spare
LDM-32/00	LED Driver card for Graphic Mimic - to suit AFP-2800/02	EOL, Available as spare
LDM-R32-AUS	Lamp driver relay kit 32 Relays (requires 10460 LDM-32). E.g. Plant & EWIS Interfaces.	Active
Networking modules		
NCM-W	Network Control Module (Wire)	Active
NCM-F	Network Control Module - Multi-mode optical fibre	Active
RPT-WF	Not-Fire-Net network wire to multi-mode fibre repeater	Active
RPT-W	Noti-Fire-Net network wire to wire repeater	Active
NCM-SMOF	Network Control Module - Single mode optical fibre	Discontinued
HS-NCM-W	Hi-Speed Network Control Module, Wire	Discontinued, replaced with HS-NCM-W-2
HS-NCM-MF	Hi-Speed Network Control Module, MF, Multi-mode optical fibre	Active
HS-NCM-SF	Hi-Speed Network Control Module, SF, Single mode optical fibre	Active
HS-NCM-WMF	Hi-Speed NCM, Wire / MF, Multi-mode optical fibre	Discontinued, replaced with HS-NCM-WMF-2
HS-NCM-WSF	Hi-Speed NCM, Wire / SF, Single mode optical fibre	Discontinued, replaced with HS-NCM-WSF-2
HS-NCM-MFSF	Hi-Speed NCM, MF / SF, Multi-mode / Single mode optical fibre	Active
PSU		
10203-AUS	RIB-16-0670- Ribbon Cable To suit LIM-LCM on AFP-2800/02	EOL, Available as spare
10202-AUS	RIB-40-0110- Ribbon Cable To suit FIM-LIM on AFP-2800/02	EOL, Available as spare
ASY-01-001	ACF Isolate switch to suit AFP-2800/02	Discontinued
USB-AUS	USB to RS232 Converter to suit AFP-2800/02, VESDA. Win7 Compatible	Active
UDC/00	Upload/Download cable - to suit AFP-2800/02	Discontinued
PSU		
PSI	Power Supply Interface (PSI) Kit to suit AFP-2800/IFS-2600	EOL, Available as spare
NPS-5	NPS-5 5.6A Stand-alone Power Supply	EOL, Available as spare
NPS-11	NPS-11 11.7A Stand-alone Power Supply	EOL, Available as spare
NPS-DISP	Display kit to suit NPS power supplies, provides status and battery test switch	Active
Metalwork		
MA-01-024	18U/BBC-18U Battery box Charcoal	EOL, Available as spare
MA-01-008	CAB650 Charcoal to suit AFP2800AUS	EOL, Available as spare
MA-01-011	CAB900 Charcoal to suit AFP2800AUS	EOL, Available as spare

Basic Upgrading information from Notifier AFP-2800 to Notifier ONYX AFP-3030 systems

1. How to replace standalone Notifier AFP-2800?

- Refer to table above of panel options
- Refer to devices that are not compatible, see below.
- For additional questions contact your Account Manager

2. How to replace networked Notifier AFP-2800 or add new panel on Notifier AFP-2800 Network?

- Upgrade Notifier AFP-2800 network to latest v7.00 B16
- Add NCA-2 to Noti-Fire-Net as master node
- Refer to devices that are not compatible see below.
- Refer to DOC-12-012 - Mixed Network Interactions
- For additional questions contact your Account Manager

3. What devices are not compatible with ONYX AFP-3030 and need upgrading?

- Annunciators and Lamp driver modules are not compatible and will need to be changed when upgrading a Notifier AFP-2800/02 system to an ONYX AFP-3030 system.
- Please contact your Account Manager for any additional questions.

4. Is there any assistance for changing Notifier AFP-2800 configurations to ONYX AFP-3030 configurations?

- Please enquire with Notifier Technical support for changing configuration as a service.

5. Is there any support for upgrading large existing cabinets available?

- Please contact your Account Manager for support relating upgrading any existing Notifier AFP-2800 systems.

6. Where to find documentation on Notifier AFP-2800, AFP-2802 and ONYX AFP-3030?

- System Datasheets, Manuals and additional information can be found on our website. <https://www.notifier.com.au>

Please contact your NOTIFIER Systems Consultant with any questions regarding pricing and availability and technical questions should be directed to NOTIFIER technical support.
