**End of Cyber Security Support**

*S3100 Portfolio*

---

### **S3100 PRODUCT PORTFOLIO END OF CYBER SECURITY SUPPORT NOTICE**

Honeywell is constantly striving to provide new features and security updates for its product offerings. In December 2022 we informed our customers of the discontinuation of the S3100 portfolio. Accordingly, this product line will no longer receive Cyber Security updates after **September 30<sup>th</sup>, 2024**.

What this means to our customers:

- Product software and security updates will discontinue effective September 30th, 2024; and
- Technical/Engineering Support for these versions will be discontinued as of September 30th, 2024.

Our future proof MB-Secure PRO is the replacement for the S3100 portfolio. Honeywell encourages you to update to the latest versions to enjoy the latest technology and current support.
