

Scalable Fire Systems Product Guide

STANLEY
Security Solutions

PROVEN FIRE AND LIFE SAFETY APPLICATIONS

Education: Schools and Universities

Fire Alarm Systems That Work for Your Schools

- Cost effective systems for retrofit or new construction as existing wiring can be used
- Systems that grow with schools and campuses
- Emergency Communications Systems for reliable notification

Health Care Facilities: Clinics, Senior Living, and Hospitals

Superior Life Safety for Healthcare Facilities

- Integrated Emergency Communications Systems in the fire alarm control panel simplifies installation and operation
- Safe solutions for individual rooms offer flexibility and confidence
- Minimized nuisance alarms with utmost detection accuracy

Hospitality: Hotels, Entertainment and Restaurants

Effective Fire Protection for Guest Safety

- Ease of programming reduces installation time for small and large projects
- Distributed power supplies enable more effective use of power for notification
- Advanced smoke detection available for difficult areas prone to false alarms

Places of Assembly: Religious, Community and Sports Centers

The Right Emergency Systems for the Gathered Community

- Emergency Communications capabilities integrated with the fire alarm controls ensures the right message gets to the occupants for immediate evacuation
- Functional systems design allows flexibility to meet current and future facility needs
- Highly reliable fire alarm system

SCSS-700 FIRE ALARM CONTROL PANEL WITH VOICE EVACUATION/MASS NOTIFICATION AND NETWORKING CAPABILITIES

The SCSS-700 Series of fire products offer flexible, easy-to-use and maintain fire alarm control panels, accessories and other critical tools to complete your fire system. Each of these panels offers you a best fit fire alarm control panel with the advanced capabilities of addressable technology. All panel offerings provide built-in synchronization for System Sensor, Wheelock, Gentex, Faraday and AMSECO devices; built-in digital communicators with up/down; and support for detector sensitivity, day/night thresholds, drift compensation and pre-trouble maintenance alert.

SCSS-700/SCSS-700ND

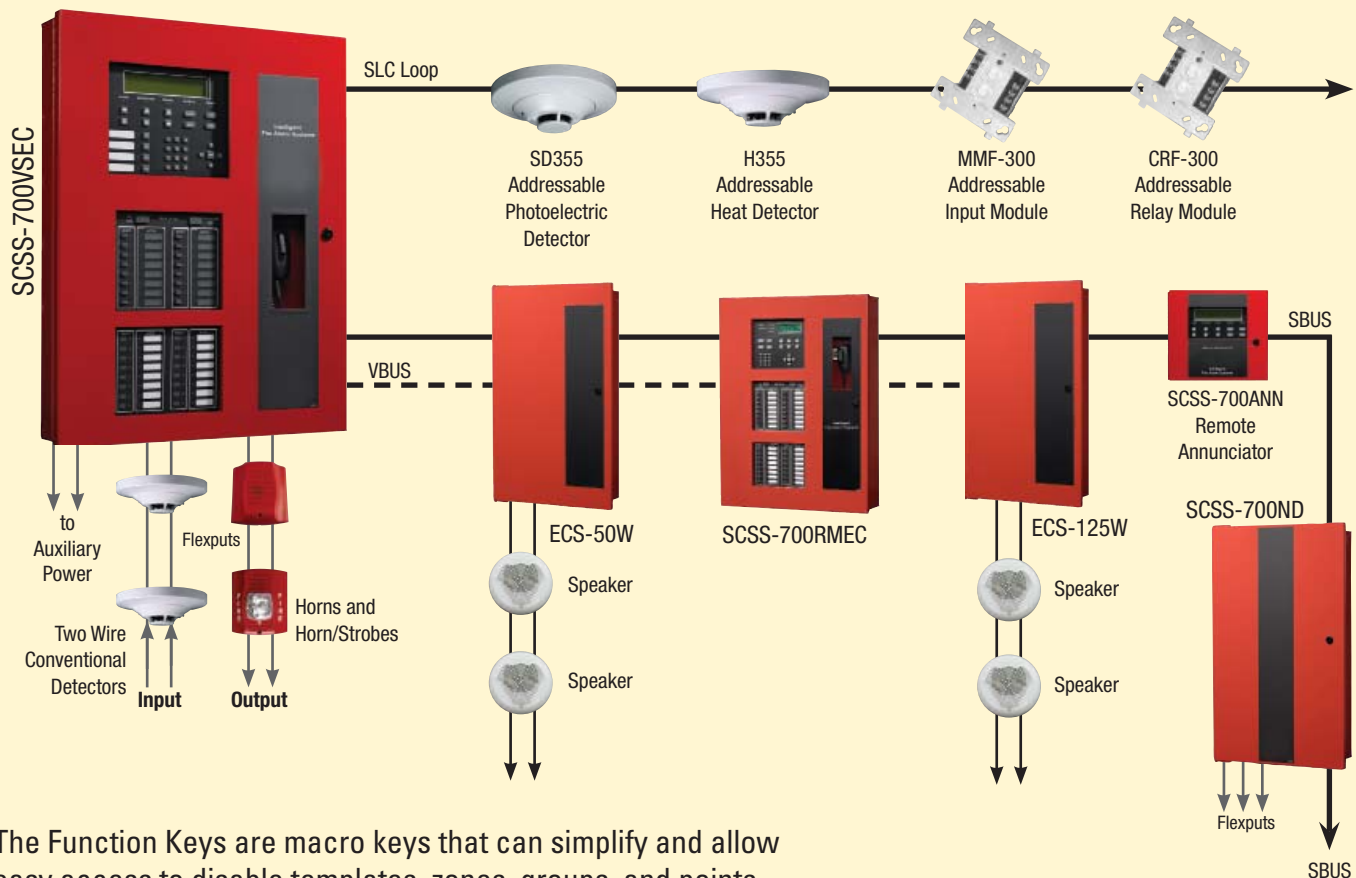

As a standalone control panel, it has the highest power and point capacity available in the Stanley product line.

- Standalone Control panel or Network up to 8 panels (5088 points)
- SLC with capacity of 159 detectors + 159 modules
- Flexputs (Programmable Input/Output circuits)
- 999 zones / 999 groups

SCSS-700VSEC

Analog addressable fire alarm controls combined with integrated Emergency/Mass Notification Communications System.

- Digital Message Repeater
- Supports up to Sixteen 50 or 125 Watt Amplifiers (2000 Watts per system)
- Can select ECS message as priority over fire
- 15 recordable messages
- Meets the requirements for an LOC
- Programmable trigger inputs from an external source
- Can be networked with SCSS-700

The Function Keys are macro keys that can simplify and allow easy access to disable templates, zones, groups, and points.

Stanley Product	Description
SCSS-700	Control Panel
SCSS-700VSEC	Control Panel with Voice
SCSS-700ND	Control Panel no Display
SCSS-700ANN	Remote Annunciator (Red)
SCSS-700RMEC	Remote Microphone
SCSS-700PK	Programming Software
ECS-50W	50W Audio Amplifier
ECS-125W	125W Audio Amplifier
ECS-SW24	Zone Expander Card for ECS (24)
ECS-CE4	Audio Circuit Expander Card (adds 4 circuits)
5815XL	Loop Expander Card
5895XL	6A Intellignet Power Supply with 6 Flex Circuits
ANN-I/O	LED I/O Module
5496	6A Intelligent Power Module
IFP-RPT-FO	Network Repeater - Fiber
IFP-RPT-UTP	Network Repeater - UTP Cable
ANN-S/PG	Serial/ Parallel Printer Module
5865-3, 5865-4	LED Annunciators - 3 Column, 4 Column
5883	8 Relay Interface Module
SD355	Addressable Photoelectric Smoke Detector; Includes B210LP Base
D355PL	Fire-Lite Intelligent Non-Relay Duct Detector
SD355T	Addressable Photoelectric Smoke Detector w/Rate-of-Rise Thermal Sensor; Includes Base
H355	Addressable Heat Detector; Includes B210LP Base
H355R	Addressable Heat Detector w/Rate-of-Rise Thermal Sensor; Includes B210LP Base
H355HT	Addressable High Heat Detector; Includes B210LP
BEAM355	Addressable Beam Detector
CMF-300	Addressable Control Module - One Supervised Notification Appliance Circuit
CRF-300	Addressable Relay Module - Built-In Two Form-C Relays
MDF-300	Same as MMF-300, w/One Additional Initiating Device Circuit
MMF-300	Addressable Monitor Module for Monitoring N/O Contacts, including Polling LED
MMF-301	Addressable Mini-Monitor Module for Monitoring N/O Contacts, No Polling LED
MMF-302	Addressable Monitor Module for Smoke Detectors, including Polling LED
BG-12LX	Addressable Manual Pull Station, Dual-Action, Lexan, Key Lock
CMF-300-6	6 Address Control Module
MMF-302-6	6 Address Monitor Module
MMF-300-10	10 Address Monitor Module
I300	Isolation Module
RA-100TR	Trim Ring use with SCS-700ANN
VIP-TR	Trim Ring use with ECS-50W, ECS-125W
