Various Access Products End of Support Notice

Honeywell is constantly striving to provide new features and security updates for its product offerings. Accordingly, the Honeywell Access Control and Visitor Management System products listed below will no longer be supported after October 31, 2023.

What this means to our customers:

- Downloads will be removed from our sites for these versions;
- Product software and security updates will discontinue effective October 31, 2023; and
- Technical/Engineering Support for these versions will be discontinued as of October 31, 2023.

Recommended replacements for these products are listed below. Honeywell encourages you to update to the latest versions to enjoy the latest technology and current support.

Please contact Honeywell Commercial Security at 1-800-323-4576 with questions.
