

**Customer Communication**

**Honeywell Commercial Video Products: End of Support Notification WEF 1.7.2019**

Dear Customer,

Due to the introduction of newer products and the evolution of IP technologies, as of 1st July 2019, Honeywell will no longer provide support for the requirements of new features, integration and cyber security updates for the legacy commercial video products in the list below.

Honeywell Video products within warranty will not be impacted by this End of Support notification. However, Honeywell will have no obligation for defects resulting from unauthorized modification, misuse, vandalism, alterations of serial number, or other causes unrelated to defective materials or workmanship, or failures related to batteries of any type used in connection with the products sold.

The IT industry has been evolving fast and most legacy kernels such as Open Source Software (OSS) and drivers have not been updated by the suppliers. This makes it difficult for Honeywell to provide further support for End of Life (EOL) products. With this announcement of End-of-Support on mentioned products, Honeywell will no longer provide support for the requirements of new features, integration and cyber security updates.

Please contact Honeywell account managers, sales and/or technical engineers in respective regions, if you have any requirement for the replacement of legacy products from Honeywell. We offer a new generation of commercial video products and solutions delivering superior video quality performance, easy integration with other solutions, improved user experience, enhanced cyber security risk reduction, and lower installation, operation and maintenance costs.

This discontinuation affects all part codes listed in the table below:

Part Code	Description	End of Manufacturing Date
HF43220R2T0N	DVR,F4,32CH,240/200,RTL,2TB,NON,PAL	14/01/2017
