GUARDIAN WEATHERSHIELD

IP55 PROTECTION IN EITHER **USED OR UNUSED** SITUATIONS WITH VIRTUALLY ANY STANDARD APPLIANCE PLUG

IP55 Protection

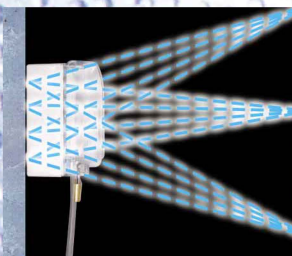

Each number in an IP (Ingress Protection) rating indicates resistance to invasion by dust and water. The MK Guardian Weathershield is rated at IP55 which means:

First digit defines
**Dust
Protection**

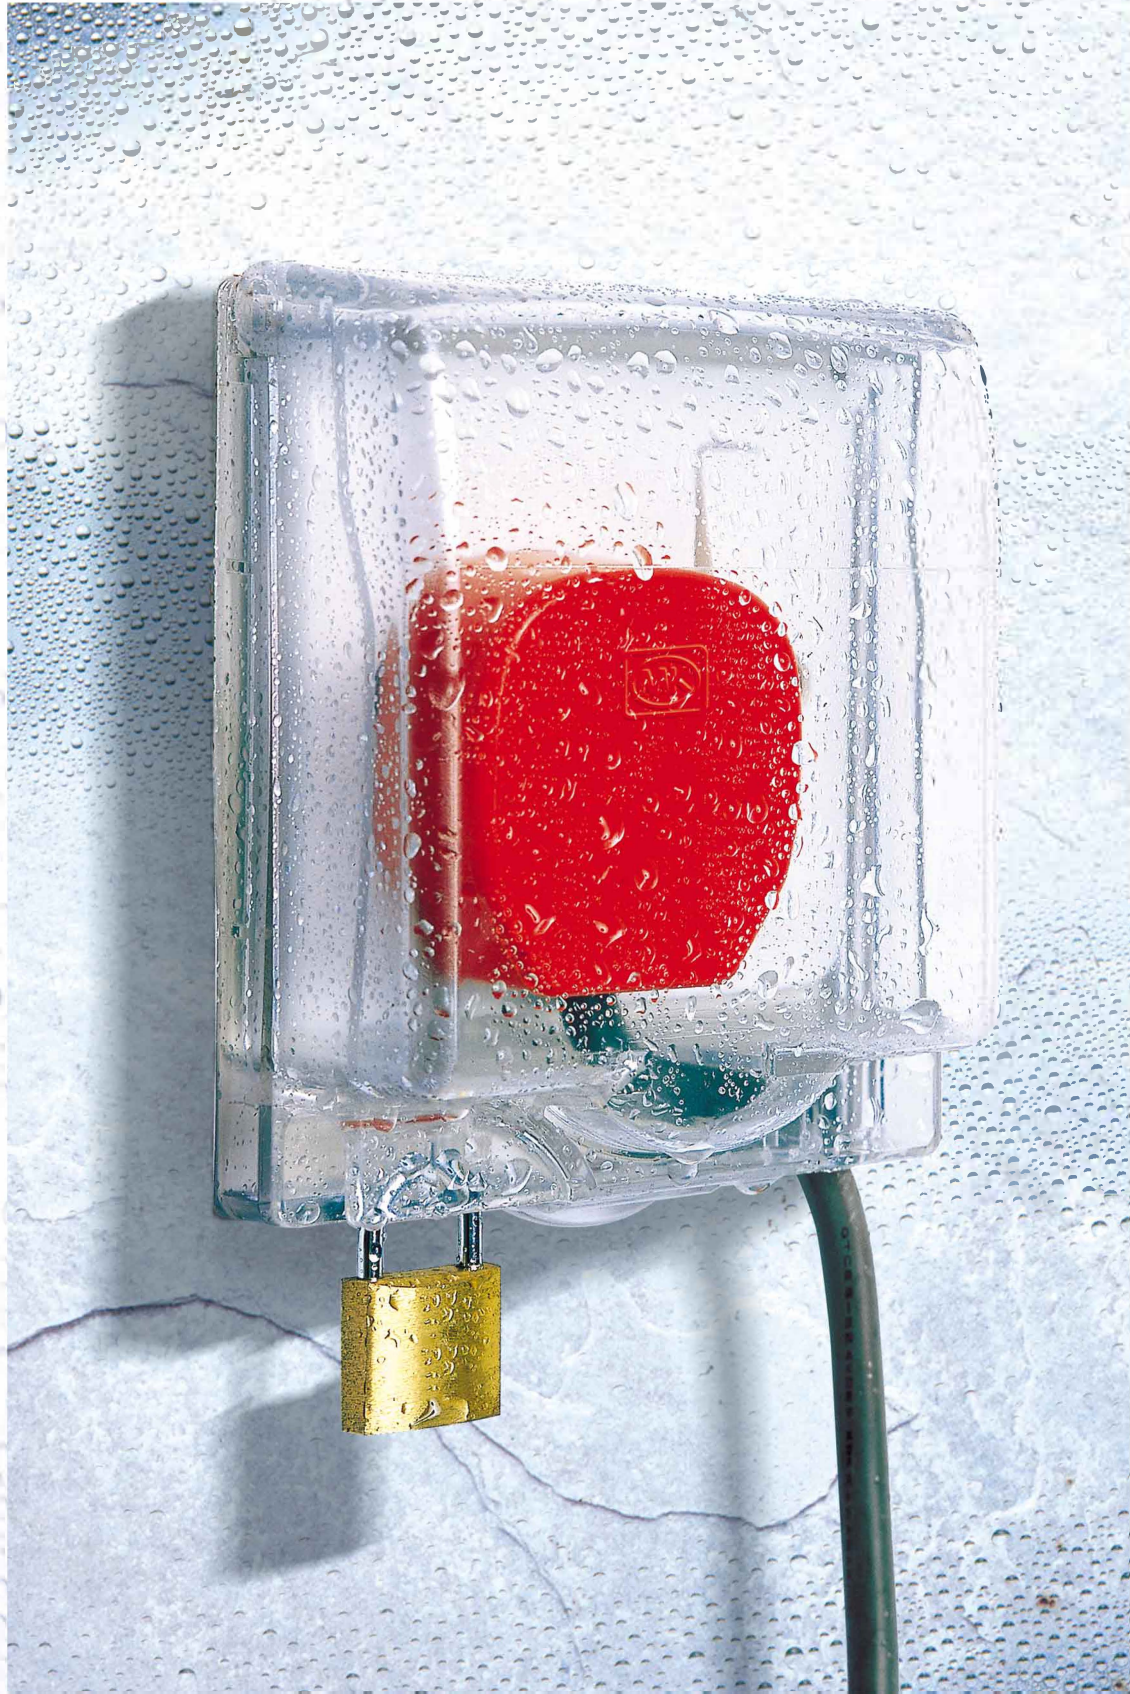

5 **Dustproof-**
protection from
dust, sawdust
and other small
particles.

Second digit defines
**Water
Protection**

5 **Waterproof-**
protection from
strong jets of
water from any
direction.

MK Guardian Weathershield and Surface Box (IP55)

This attractive unique MK Guardian Weathershield and Surface Box are designed for use in either outdoors or indoors. Especially in areas heavily exposed to dust and splashing water such as the balcony, garden, workshop, industry, farm, near swimming pool or even at the seaside; where a supply of electricity are essential though it may be potentially dangerous.

Innovative Features And Benefits

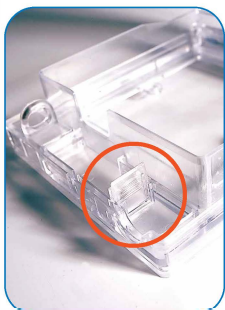

- ❖ IP55 rated for dust and water protection.
- ❖ Can be installed either with Switches or Socket Outlets of 86mm x 86mm size
- ❖ Tested and comply with IEC 60670 and BS EN 60529 / IEC 60529

- ❖ With the transparent cover, the switch-position (i.e. ON/OFF) of installed product is highly visible.
- ❖ Can shield any standard 5A, 13A,15A or 16A plug providing safe connection for any appliance and no need for any costly special designed plugs.
- ❖ When mounted with a designated surface box (GWS/1/B), IP55 protection for surface mounting is achieved

- ❖ Built-in padlock hole provides secured padlocking and prevent tampering with the power supply.
- ❖ The proper sitting of the plug cable prevents water penetration thus achieving IP55.

- ❖ A stopper is used to prevent water penetration if the Guardian Weathershield is installed with a switch thus achieving IP55.
- ❖ Made with highly durable and UV stabilised material to ensure safety and reliability.
